1931 IRISES

GROWN AT

Sunnyside Gardens

L. Merton Gage

Natick, Massachusetts

IRISES GROWN AT SUNNYSIDE GARDENS NATICK, MASS.

My list this year retains only the best of the many modern irises that have been introduced within the past five years and some of the fine old varieties of previous introduction, that still retain favor in the gardens of discriminate iris lovers.

I am cataloguing this year for the first time two new Irises of great merit; one from Professor John E. Hill, a red violet self that was given H. M. last June, and is one of the finest irises of its color I have seen. He has named this lovely iris "Aboro."

The other is Mr. Lapham's "M. A. PORTER" another dark purple, even a darker tone than Gaudichau of which it is a seedling. A visitor to my gardens last June said "I think this iris is as OUTSTANDING as is Sir Michael." They were planted side by side.

Visitors to my Gardens will find many new varieties this year, all of them interesting, but not all of them will find a place in my 1932 Catalog. There are too many varieties being introduced these days, for the reason that there are so many breeders engaged in the pastime of hybriddizing this beautiful flower, and so many of them not conversant with the newer things, that it is hard to know just what to buy, and what to recommend, and so I find it is better to wait until a variety has bloomed in my own garden before I catalog it. I hope to have in bloom this June some of the famous new irises of recent favorable comment; Pink Satin, Eloise Lapham, two very fine pinks, Fragonard and Indian Chief and Mount Royal which did not bloom for me last year. Hypnos from Mr. Connell, Lochinvar, a lovely blue I saw in Mrs. Kellogg's garden last June, Morrison's "Oread," Piper's "Purple Glory," Printemps and Prairie King from Mrs. Nesmith, Serenade, (Hall), Van Cleve, (Van Name) and "Wambliska," the sensational new big white iris from Mr. Jacob Sass.

I will have a few hundred seedling irises bloom for the first time this year, which should include a few from crosses of various fine yellows with "Wm. R. Dykes."

The best blue-purple iris in my garden last year was "EUPHEMIA." Almost identical with Pioneer, it is a little smaller flower but three times as free a bloomer, and does not wilt under the hottest sun. I had one bed of 12 plants in bloom last year that was a feast for the eye. And, if you like yellow irises, don't fail to order a plant of CORONATION. It can't be beat or even approached for the price.

Everyone has their favorites. Here are some of mine that I can heartily recommend in every way. Blue Velvet, Bruno, Dalila, Churchmouse, Citronella, Cygnet, Conchobar, Dolly Madison, E. C. Shaw, Frieda Mohr, Gabriel, Germaine Peerthuis, Grace Sturtevant, Geo. J. Tribolet, Jacqueline Guillot, Labor, Lady Byng, Melchior, Los Angeles, Mdigard, Mildred Presby, Morning Splendor, Mrs. Valerie West, Nusku, Peerless, Prosper Laugier, Proteus, Ramona. Rhingauperle, Gabriel, Sensation, Souv. de Loetitia Michaud, Gaudichau, Titan, True Charm, Trostringer, Veloute, Vesper Gold, Yolande, Wm. R. Dykes, Zulu, Ann Page, Aphrodite, Asia, Ambassadeur, White and Gold, Alabaster, Amarind.

RATING—The numbers preceding the name of a variety are the ratings of the American Iris Society Symposium of 1928. First number Exhibition; Second iumber Garden score. Following the name, in parenthesis, is the name of the Originator, and the year introduced. Those varieties that are not scored have not as yet been voted on. Abbreviations of originators as follows,—Andr.; Andrews; Burch., Burchfield; Cay., Cayeux; Den., Dennis; G. & K., Goos & Koenemann; Ken., Kennicott; Koeh., Koehler; Mill., Millet; Mor., Morrison; Nes., Nesmith; Pres., Presby; Sturt., Sturtevant; Verd., Verdier; Wal., Wallace; Will., Williamson; Vil., Vilmorin.

Read Carefully Before Sending In Your Order.

My STOCK of some varieties is not large, so early orders may be advisable. Send in your order early with 25% of the amount, and balance at time of shipment, and I will hold them for you. All orders must be accompanied with cash, but if to be sent C.O.D. remit 25% when ordering.

S. refers to the 3 upright petals (Standards). F. the three drooping petals (Falls).

SUBSTITUTES—If any varieties you have ordered are sold out, something as good or better will be substituted if you request. Otherwise, your money will be returned. Postage on all orders will be prepaid, and if order amounts to \$5.00 or more it will be sent insured at my expense. ORDERS under \$2.00 not accepted. A DISCOUNT of 10% will be allowed on orders amounting to \$25.00 or more, and 15% on orders amounting to \$50.00 or more.

THE COLOR DESCRIPTIONS of most of the varieties in this list are in accordance with the Ridway Color Standards and Nomenclature.

THE AMERICAN IRIS SOCIETY

Join the American Iris Society, and you will receive Four Bulletins a year of interesting news and valuable information. Send \$3.00 for dues to J. B. Wallace, Secretary, 129 Church Street, New Haven, Conn.

LOCATION OF SUNNYSIDE GARDENS

My Gardens are located on Harvard Street Extension, a short terminal of Harvard Street. Take North Avenue from North Main St., turn at Rice St., and keep on to end of street and bear to the left. House Garden, No. 3 Sawin St., immediate neighborhood.

SUNNYSIDE GARDENS.

THREE VERY FINE INTRODUCTIONS FOR 1931

GENERAL LIST TALL BEARDED IRISES

ALABASTER (Andr. 1926) A new snow white of fine form, wonderful texture with slightly suffled edges. Beard nearly white, shading to yellow. 36 in. Each \$1.50

- 92-91 AMBASSADEUR (Vilm. 1920) S. smoky reddish-violet. F. very brilliant deep redviolet; rich orange beard. One of the grandest irises in the world. 40 in. Each \$.50
- 88-88 AMBER (Dykes 1924) 36 inches. Many Iris authorities consider this the finest yellow Iris introduced to date. Given an Award

of	Merit by	the Royal	Horticultural	Society
of	England.	Each .		. \$1.00

- 81-88 APHRODITE (Dykes 1922) A large bright cattelya rose self without markings of any kind, that for purity of tone, brightness of color and perfection of form has no equal. Vigorous, stems tough and well-branched, fine substance. 4 ft. Each \$1.00
- 92-88 ASIA (Yeld 1920) S. pale silvery lavendar deepening at base to golden yellow. F. flaring, pale red-purple, lighter toward margin. Massive flower of pleasing shape and unsurpassed in form and beauty. 52 in. Each ... \$1.00
- 76-83 ATHENE (Sturt. 1920) A vigorous growing warm white of fine form and substance. Very free flowering. 36 in. Each \$.50

BELLE PORTER (Lapham 1929) The standards, livid brown slightly suffused with violet. F. violet carmine edged lighter with a lighter medial line. Hard to describe, but might be termed a blending of old rose and red. The coloring is quite striking and distinctive. Growth rampant. 30 in. Each \$1.00

BONNIE BLUE (Sturt. 1928) For a beautiful blue-toned mass you could not find a better iris. Jaunty, of fine form and substance, vigorous and floriferous. 3 ft. Each .. \$2.00

BLUE VELVET (Loomis 1929) A clear velvety very dark blue. Without doubt the finest dark blue iris yet offered. Award of Merit, Royal Horticultural Society 1929. Stock is very scarce. Each \$35.00

91-90 BRUNO (Bliss 1922) S. fawn, tinted rose, shading to yellow at the base. F. deep, rich, velvety red-purple of exceptional size and great substance. Very distinct, scented. Wonderful in bright sunshine. This variety is being used for hybridizing more than any other iris in the world. 36 in. Each \$2.00

CAMILLA DUBUAR (Lapham 1929) Phlox pink to pale phlox pink. "This iris gives a much truer impression of real pink than any I know, and is really very delicate and beautiful, yet holds up well. It is also of vigorous growth and quite distinctive in its appearance as a plant. Its stems are well branched, start well down, about even with the drooping foliage; four branches, many blooms up to 12 to a stem. Each ... \$5.00

CINNABAR (Will. 1928) S. Violet-purple shading to copper at claw. F. flaring, Catinga Purple, center and crests Pale Ampara Purple. General effect of flower, in mass, rich dark red of one tone, tho it is a bicolor due to the heavy velvet falls. 42 in. Each \$5.00

- 85-85 CITRONELLA (Bliss 1922) S. bright golden yellow, deepening at the base. F. rich golden brown, heavily lined carmine. A flower of wonderful form and habits of growth. 3 ft. Each \$1.00
- 88-85 CONCHOBAR (Bliss 1921) A rich purple with reddish tinge. On the lines of Cardinal, but larger and taller. An iris of real merit and promise. 48 in. Each \$2.00
- 89-83 CONQUISTADOR (Mohr. 1923) Very large bicolor. S. bluish lavender. F. deep shade of violet, very rich color. 4½ ft. Each \$.75

COPPERSMITH (Shull 1926) Large flower of Ambassadeur type. S. purple drab to cinnamon drab. F. rich dahlia carmine blended lighter at the center. 40 in. Each . . \$3.00

CORONATION (Moore 1927) Here is a deep rich golden yellow iris nearly 4 feet tall on well branched stems. It does not fade or flop in the hot sun. The flowers are the largest of any yellow iris I have seen with the exception of W. D. Dykes. It sometimes has a few insignificant brown spots at the base of the falls, but these are not noticeable three feet away from the flower. If you like yellow irises don't fail to order this one. Each \$5.00

- **82-83** CYGNET (Sturt. 1922) Ivory white with flaring falls. A distinct plicata, remarkable for its form and beauty. 48 in. Each **\$1.00**
- 76-79 DALILA (Denis 1914) A distinct and striking variety with creamy yellow standards and plum-red falls; a good grower and very free flowering. 2½ ft. Each \$.35

DOROTHY DIETZ (Will. 1929) S. Opening a light chicory blue, fading to white. F. pansy violet, paler at margin. "A large and unexcelled amoena, distinct and refined." Each \$7.50

DR. C. H. MAYO (Fryer) new. Some pronounce this as Mr. Fryer's best introduction. I would call it nearer pink than Dream or Susan Bliss. S. light purple. F. phlox-purple. Very fragrant. 3 ft. Each \$1.00

77-81 *E. C. SHAW (Fryer 1919) S. light claret. F. claret, veined and shaded black. Sweetly scented. 26 in. Each \$.40

> ENDYMION (Sturt.) A blend of buff and lilac. Delicate and beautiful. 3 ft. Each \$3.00

FISMES (Mill. 1924) S. cream deepening to yellow at base. F. soft reddish-lavender with white and olive-brown lines at base; rich or-

ange beard. Large flower on tall well branched stems. 36 in. Each \$1.50

- 89-85 FRIEDA MOHR (Hohr 1926) S. domed, lilac-pink. F. broad slightly flaring, lilac-rose, pale yellow beard. A very large flower of fine form and heavy substance. A wonderfully beautiful iris. 42 in. Each \$3.00

*GANDHI (Burch. 1924) A grayish-purple bi-color blooming very late. Flowers of medium size. Each \$.50

- 90-88 *GEORGE J. TRIBOLET (Will. 1926) S. negrosin-violet. F. a solid and velvety blackish red-purple. The blooms are medium to large size of fine for mand substance. A magnificent iris. 40 in. Each \$1.00
- 91-90 GERMAINE PERTHUIS (Mill. 1924)
 Special award Paris Iris Commission 1924. S.
 a pleasing tone of violet-purple, lighted a
 brighter tone. F. deep Bishop's violet, of velvety texture. Flowers of enormous size, and
 fine form, and the sweetest scented of all
 irises. This iris created a sensation when
 shown at many exhibitions in 1928. 3 ft.
 Each \$2.00 3 for \$5.00

GLOWING EMBERS (Sturt. 1923) S. light brownish lavender. F. rich velvety pansy purple, enclosing a glowing center of orange beards and yellow netted hafts. Heavy rich blooms on tall stems. 42 in. Each .. \$1.50

- 86-87 *GOLD IMPERIAL (Sturt. 1924) A fine chrome yellow self. Vigorous and free flowering. 33 in. Each \$1.00
- 91-87 GRACE STURTEVANT (Bliss 1926) One of the finest of the famous Dominion Seedlings. S. dark red-brown. F. violet-carmine, so dark that the color looks black and in some lights a deep maroon. Rich velvety texture, and heavy substance. The richest colored iris in my garden. 3 ft. Each \$8.00

GREY DAWN (Bales 1925) S. blue-gray effect, and of fine arching form. Falls somewhat deeper in color, and slightly tinged with blue. Tall, branching stems hold the

- beautiful large blossoms erect. An exceedingly late bloomer, prolonging the blooming season at least two weeks. 3 ft. Each \$.75
- 79-82 *HARMONY (Dykes 1923) Deep rich violetpurple self. Even the beard is purple. One of the most free flowering irises. A distinct and beautiful iris. Each \$.50

- 84-82 *HESPERIA (Will. 1926) A large and striking bi-color of distinct coloring. S. light drab. F. a solid blackish-red purple, flushed amber. Large flower, vigorous plant, free flowering on strong well branched stems. 36 in. Each \$.50

 - HORIZON (Hor. 1925) A lovely uniform light blue self. One of the lovliest irises in my garden. 40 in. Each \$1.00
- - IMPRESSARIO (Mor. 1928) Growth moderate, regular, compact. S. lobelia-violet. F. livid purple to aconite violet to lobelia violet. Violet at the tips. 3 ft. to 5ft. A blended bicolor with flexuous stems. Each .. \$3.00
- 77-83 *ISIS (Bliss 1919) China blue, tinged violet. Good siz flowers, and well formed, and is very free flowering. 38 in. Each .. \$.50
- - KLAMATH (Kleinsorge 1929) S. hissop violet. F. prune purple. Style branches chalcedony yellow on sides, crest purple drab.

Beard extremely yellow. Haft and claw beautifully marked with brown. Height 42 in. August delivery. Each \$40.00

86-87 LABOR (Cay. 1926) A new color among irises. A distinct dark violet-heliotrope self, with falls a shade deeper than the standards. About three feet tall and well branched. Very free. Distinct red effect. Each \$3.00

86-82 LEVERRIER (Den. 1917) S. Chinese violet. F. pansy violte. General effect light rosered. A magnificent large spreading bloom on a four foot stalf. Each \$.50

LE CORREGE (Vilm. 1927) Very large flowers. S. smoky bronze shot with lavender, and suffused with red, with a brilliant, prominent beard. Vigorous grower, well and widely branched; sweetly scented. 46 in. Each \$5.00

- 87-85 MAGNIFICA (Vilm. 1920) S. light violet blue on white. F. long drooping, deep reddish violet, reticulated brown. 38 in. Each \$.75
- 79-79 MAGNIFICENT (Fryer 1925) H.M.A.M. Soc'y. S. bright violet rose. F. very large and long. Rood's violet, approaching crimson. Conspicuous orange beard. Redder in effect than Germaine Perthuis. 38 in. Each \$1.00
- 82-81 MARSH MARIGOLD (Bliss 1919) S. pale golden yellow. F. deep purple brown, bright yellow margin. Fine 32 in. Each \$.35
- 88-90 MARY BARNETT (Cumbler 1926) A glorified Princess Beatrice with a golden beard so brilliant that the reflection pervades the whole bloom. Vigorous and free flowering. Each \$2.50
- 84-85 *MARY GIBSON (Perry 1922) This beautiful iris is a very distinct color. S. delicate shade of light bronze, overlaid old rose. F. old rose suffused bronze; conspicuous yellow base. Scented. Strong grower, free flowering. H. M. Royal Hort. Soc'y. 4 ft. Each . . \$.50

- 86-87 MILDRED PRESBY (Farr 1923) This is the finest of the amoenas, and the best selling iris in my whole list. S. warm ivory white,

90-87 MOA (Bliss 1919) S. arching, and very broad; pure violet. F. broad, almost circular. Very smooth deep violet. Enormous flowers on tall well branched stems; very heavy substance. This is one of my favorites. 42 in. Each \$2.50

- 86-85 MME. HENRI CAYEUX (Cay. 1924) S. smoky reddish-violet. F. velvety dark crimson, lighter at edges. A beautiful iris on the lines of Ambassadeur. 40 in. Each .. \$1.00
- 79-79 *MRS. MARIAN CRAN (Perry 1923) An unusual shade of brilliant light rose; white and yellow beard. Wonderful form and beauty on tall and well branched stems. Similar in color to Susan Bliss. I have the TRUE stock. 42 in. Each\$1.00

MRS. VALERIE WEST, 92 (Bliss 1925) The highest development of the Dominion race and one of the very finest of all iris. S. bronze flushed with reddish lavender. F. rich velvety wine purple. 40 in. Each \$15.00

NEBRASKA (H. Sass 1927) S. apricot yellow, ruffled. F. brilliant yellow striped and clouded brown. 34 in. Each \$2.00. 3 for \$5.00

- 79-79 NEPTUNE (Yeld 1918) Similar to Lord of June but darker and better form. Large flower of fine substance. 42 in. Each . . \$.50

 - NYMPH (H. P. Sass 1926) An empire yellow intermediate. Very fine color. Each \$2.00
- - OLD GOLD (H. P. Sass 1929) S. primuline yellow, ruffled. F. old gold overlaid buff, a few stripes on haft, distinct yellow beard tipped brown. Medium large flower on 28 in. branching stem. A real fine yellow plicata. Each\$2.00
- 82-73 *OPHIR GOLD (Andr 1925) A golden yellow self without marks of any kind. Vigorous and free flowering. 32 in. Each \$.35
- 91-89 PEERLESS (Dykes 1924) S. very erect, long, broad, light reddish-violet. F. long, straight hanging, deep purple-red, with bronze reticulations. Wonderful form, and a most beautiful glowing Mahogany-red effect; roch gold beard. 40 in. Each \$10.00
- 89-90 *PIONEER (Bliss 1924) S. incurved, large, rich red-purple. F. broad and strong, deep glowing red-purple, color solid without veining. A strong, virorous grower, well branched stems, flowering over a long period. 36 in. This is the most popular red-purple iris in my collection. EXTRA. Each \$1.00
- - PLUMED KNIGHT (Sass 1927) White, finely veined and stippled with pinkish-kilac. Each \$1.00

- 77-80 PRINCE CHARMING (Sturt. 1924) An oval white flower delicately flushed and veined with pink. 36 in. Each \$1.50
- 90-90 *PRINCESS BEATRICE (Barr 1898) Delicate silky light lavender-blue with flaring falls; wavy edges; white beard, tipped orange. A strong, vigorous grower with wide light green foliage. 42 in. Extra. Each \$.50
- 86-84 *PROSPER LAUGIER (Verd. 1914) S. Tan or light orange beard. A favorite with most all visitors at my gardens. Robust grower, and very free flowering. 32 in. Each \$.25
- 81-82 PROSPERO (Yeld 1920) S. Bright lavender blue. F. well rounded deep red-purple, lighter at margin, brown reticulations, orange beard. Very large flowers of heavy substance and good form; well branched and free flowering. 48 in. Each \$.50
- - REALM (G. P. Baker 1926) 42 in. LATE. An intense pure rich blue self with a conspicuous golden yellow beard. Gigantic flowers of fine form and good substance. Each \$4.00
- 83-87 RHEINGAUPERLE (G. & K. 1924) A beautiful soft rose pink flower, quite similar to Wild Rose, but much larger, and a more robust grower. Free flowernig. Do not fail to order this, 32 in. Each \$1.50
- 83-83 ROBERT W. WALLACE (Perry 1923) S. rich violet. F. very rich deep, almost black-

- 80-84 *ROSALBA (Bliss 1919) A deep rose, darker and taller than Seminole. A very fine color, well branched and quite free flowering. Almost the same red effect as Evadne. 36 in. Each \$\\$.50\$
- 75-83 *ROTA (G. & K. 1924) S. bright silky-carmine. F. darker, with veinings. A brilliant flower, and most attractive. 28 in. Each \$.75

- 81-85 *SAPPHID (Dykes 1922) Very bright blue with a slight purple tone; almost a self. The flower is very large, resembling Gold Crest, but earlier. Very desirable. 30 in. Each \$.50
- 83-83 *SEMINOLE (Farr 1920) S. dark violetrose. F. rich velvety crimson; prominent orange beard. The effect is a brilliant velvety reddish-crimson. 32 in. Each \$.35

SENSATION (Cay. 1925) A beautiful clear blue self; fine horizontal falls. A tall well branched variety of exceptional beauty. Very Extra. 32 in. Each \$10.00

 SNOWCAPT (Bales 1927) The standards are pure white and held stiffly erect. The falls are richest purple and are held horizontally. The strikingly colored flowers are of good size, have excellent substance and texture and are well placed on the best of stems. Surely a beautiful iris. Each \$1.00

SOPHIE (Lapham 1929) Manganese-violet, slightly suffused with bronze. The flower is beautifully shaped and splendid substance. It has good height and size of bloom. Its second year from seed it gave two bloom stalks, and the third year EIGHT. Rampant as to growth, and freest blooming iris I have ever encountered. A self Each \$1.00

- 86-85 SOLFERINO (Cay 1925) A magnificent pallida of beautiful red-lilac color. A seedling of Aphrodite which it surpasses, but grows ten inches taller. 48 in. Each \$3.00
- 92-90 SOUV. De LOETITIA MICHAUD (Mil. 1923) The strong stems grow about four feet tall, bearing enormous flowers of a fine texture. Sky-blue, a little paler towards the edges. F. the same color beautifully veined yellow on the white ground of the haft. This is one of the most beautiful irises in the world. A large stock of it enables me to make the price very low. Each \$2.00. 3 for \$5.00
- 91-88 SOUV. DE MME. GAUDICHAU (Mil. 1924) S. very deep rich blue-purple. F. deeper shade beard blue tipped yellow. 42 in. Each \$.50

SWAZI, 89 (Bliss 1922) One of the finest of the Dominion seedlings. Magnificent flowers of the finest shape and size. S. bluish violet; F. velvety blackish violet. The growth is vigorous and the coloring is among the darkest and richest of the race. 40 in. Each \$5.00

- 85-87 SWEET LAVENDER (Bliss 1919) S. pale lavender-blue. F. broad widely flaring, deeper rose-lavender, shading darker at center. Very sweetly scented. 40 in. Each \$.50

- 83-82 *SUNSET (Ochracea) (Den. 1919) S. real old gold faintly bordered yellow. F. flaring coppery-yellow, heavily suffused with blue-violet in the center, and beautifully dotted brown at the haft. EXTRA. 36 in. Each \$.35
- 84-82 TITAN (Bliss 1919) S. arching, light violet-blue. F. horizontal, broad, violet-purple, darker in center, conspicuous reticulations at haft. Enormous flowers, and very free flowering. The largest flowers of all the Dominion race. VERY EXTRA. 38 in. Each ... \$1.00

TUSCANY GOLD (Will. 1929) Standards sulphine yellow, clearer and deeper yellow at the claw, with restricted reticulation of maroon. Falls drooping; broadly wedge shape; colored like the standards with more purple. General effect reddish-gold. Beard cadmium yellow. Each \$10.00

WEDGEWOOD, 87 (Dykes 1923) The richest "Wedgewood China" blue of uniform color throughout. 42 in. Each \$1.00

*ZADA (Emigholz 1926) Absolutely pure white, shaped like White Knight, one of its parents, but taller and has branching stems. Very hardy and free blooming and increases more rapidly than any iris I grew. This is a good buy. 36 in. Each \$.75

- 85-85 ZULU (Bliss 1925) S. clear, rich steely analine-blue. F. fine dark rich velvety blue. This is one of the richest of the Dominion family. Don't miss this one. 36 in. Each \$2.00

IRIS SIBIRICA

Do not plant Siberian irises in dry or sloping ground. They like moist but not wet soil, and should be planted a little deeper than the tall bearded irises; the crowns ½ to ¾ inches below the surface, and should be watered occasionally during a dry spell.

KINGFISHER BLUE A grand new introduction with large dark-blue flowers on stems over 4 feet. Each \$1.50

*PAPILLON A beautiful light blue of uniform color throughout. Very large flower, not quite as tall ass Kingfisher Blue, but a splendid grower and free flowering. Each \$.75

TRUE BLUE Some consider this a better color than Perry's Blue. The standards are a shade darker. 24 inches. Each ... \$.35

*PERRY'S BLUE A tall and particularly beautiful variety. A wonderful clear shade of China Blue. Always in great demand. 48 inches. Each \$.35

*SNOW QUEEN Very large snow white flowers with a rich golden yellow blotch in the throat; vigorous and free flowering, over 30 inches. Each \$.25

Full cultural directions for all kinds of irises sent with every order.

Varieties marked with an asterisk (*), three will be sold for the price of two.

FINER OLD VARIETIES AT BARGAIN PRICES.

25c each 3 for 50c (of one variety)

AFTERGLOW—lavender gray to buff
ALCAZAR—blue-purple bicolor
ANNA FARR—white, margined pale blue
BLUE JAY—bright blue, darker falls
CECILE MINTURIN—soft cattleya rose
CLEMENT DESMORES—bright reddish pink
CORRIDA—clear, light blue
DELICATISSIMA—Lobelia blue
DORINE—white edged lavender
DREAM—rose pink
EDOUARD MICHEL—deep petunia violet

FAIRY—standards and falls splashed with
pale blue
FIRMAMENT—very early, two tones of blue
GEORGIA—a little darker than Cecile Minturn

GEORGIA—a little darker than Cecile Minturg GERMANICA—deep purple, very early JUNONIA—soft blue and violet-purple KOCHI—deep blackish purple.
